

NUCTECH™ WESPACE VII

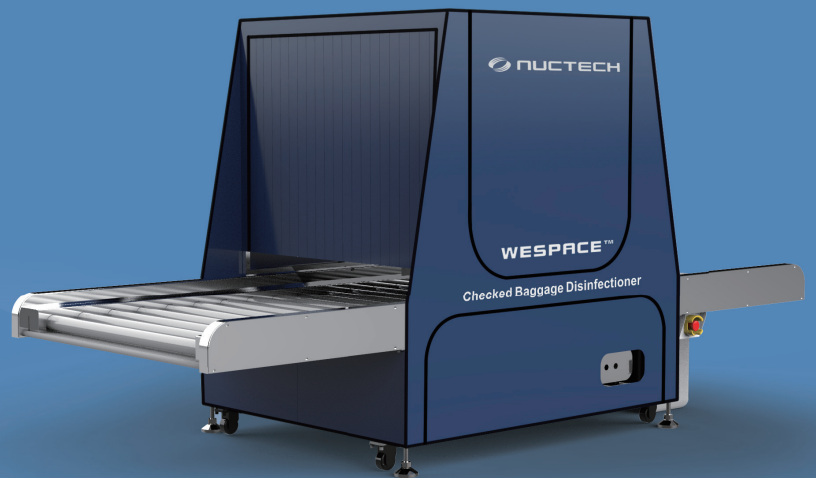

Checked Baggage Disinfectioner

NUCTECH VII Checked Baggage Disinfectioner is a newly developed automated baggage disinfection machine for checked baggage and/or shipping package by NUCTECH COMPANY LIMITED. This product innovatively combines atomization disinfectant spray system and unique aseptic composite fabric to realize a comprehensive closed disinfection space, providing a safe and efficient disinfection method.

WESPACE VII has a compact design and can automate the entire disinfection process. This dramatically reduces the current heavy manual operation and long time exposure to disinfectant for operating staffs.

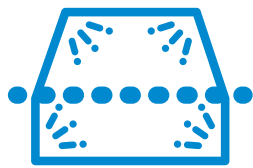

As a new disinfection method, WESPACE VII effectively enhances the on-site baggage disinfection capability and efficiency. This product is particularly suitable for public transport hubs such as airports, piers, and railway stations, as well as modern logistic centers to better help epidemic prevention and control.

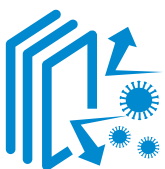

Product Advantage

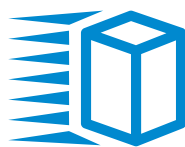

Comprehensive
Disinfection

Closed Spray
Space

Aseptic Composite
Fabric

Easy to
Deploy

Application

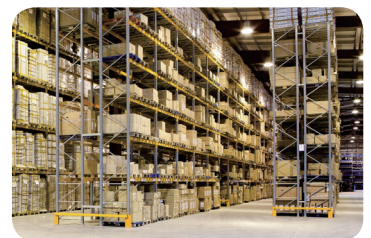

Airports

Piers

Railway Stations

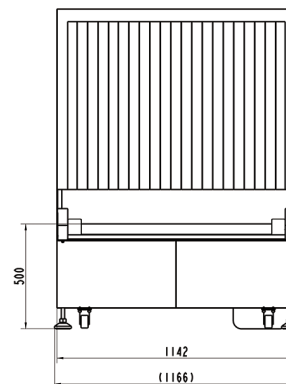

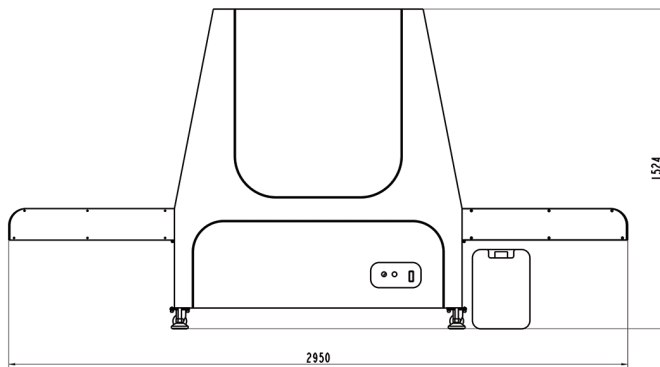

Logistic Centers
